

Region 1 Policy 7.01 Implementation Plan
Completed Goals/Objectives
ADSA – HCS/RCS

1. To attend meetings with Tribal Liaisons & HCS Supervisors & AAA staff to resolve individual issues as they arise:
ACTION: CTAAA, Reva Desautel, has been attending the HCS/AAA statewide meetings this past year.
2. To provide timely referrals for LTC services from the hospitals to HCS Intake.
ACTION: HCS supervisors & staff met with hospital staff to review procedures. Process is better but needs continued communication between parties.
3. Use of correct HIPAA Consent form with HCS clients.
ACTION: HCS SW in Colville added the Tribal Health to the consent form to be signed by tribal member clients.
4. Provide emergency IT support for Colville Tribal AAA.
ACTION: ADSA IT has been helping with issues and concerns as they are needed by the CTAAA.
5. Implementation of the APS & Colville Confederated Tribes.
ACTION: Agreement was signed by all parties in March 2007.
6. Regularly scheduled meetings with tribal representatives & RCC members.
ACTION: No longer meeting unless there is an agenda.
7. Colville Tribe AAA has been given information for working with HCS and other community partners on staffing difficult cases. HCS will assist in setting up an A-Team with them.
8. May 29, 2009 HCS & ALTCEW will provide an in-service to the staff of the Kalispel Tribe on the HCS programs and processing; APS program; AAA information and referral and other programs that they have to offer to the communities.
